

“Here at EMC is coherence of vision, lighthearted yet committed support of the staff, warmth of families and community, and a vibrant professional multinational environment. These all come together to create an inspiring place for some of the most important work of the world: helping children grow into their best selves while we also strive to become better adults ourselves. To me, EMC represents attaining an ideal, a model, and an aspiration of what a Montessori school community can be. This is a very special place, and I am grateful to be here .**”**
